I céyá

Walkthrough Guide

Employer post-job and applicant apply flows

This guide walks you step by step through:

- How an employer creates an account and posts a new job
- How an applicant signs up, finds a job and submits an application

Each step shows the exact screen you will see in the I céyá web app, with a short explanation of what to do next.

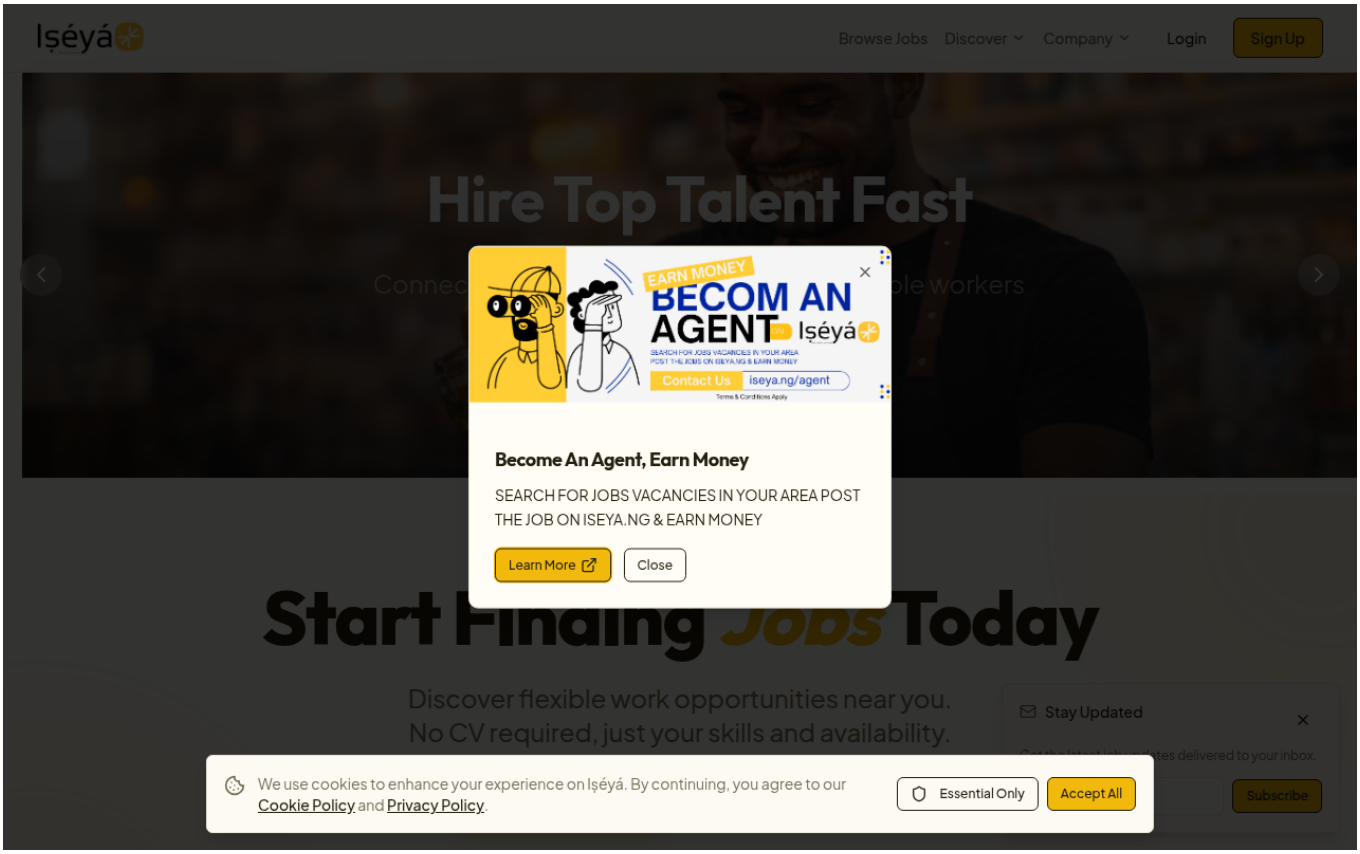
Connecting Nigerian workers with opportunities.

Part 1 — Employer flow

How to create an account and post your first job on I céyá

1. Land on the I céyá homepage

Visit iseya.ng and tap the Hire / Get Started button to begin posting your first job.

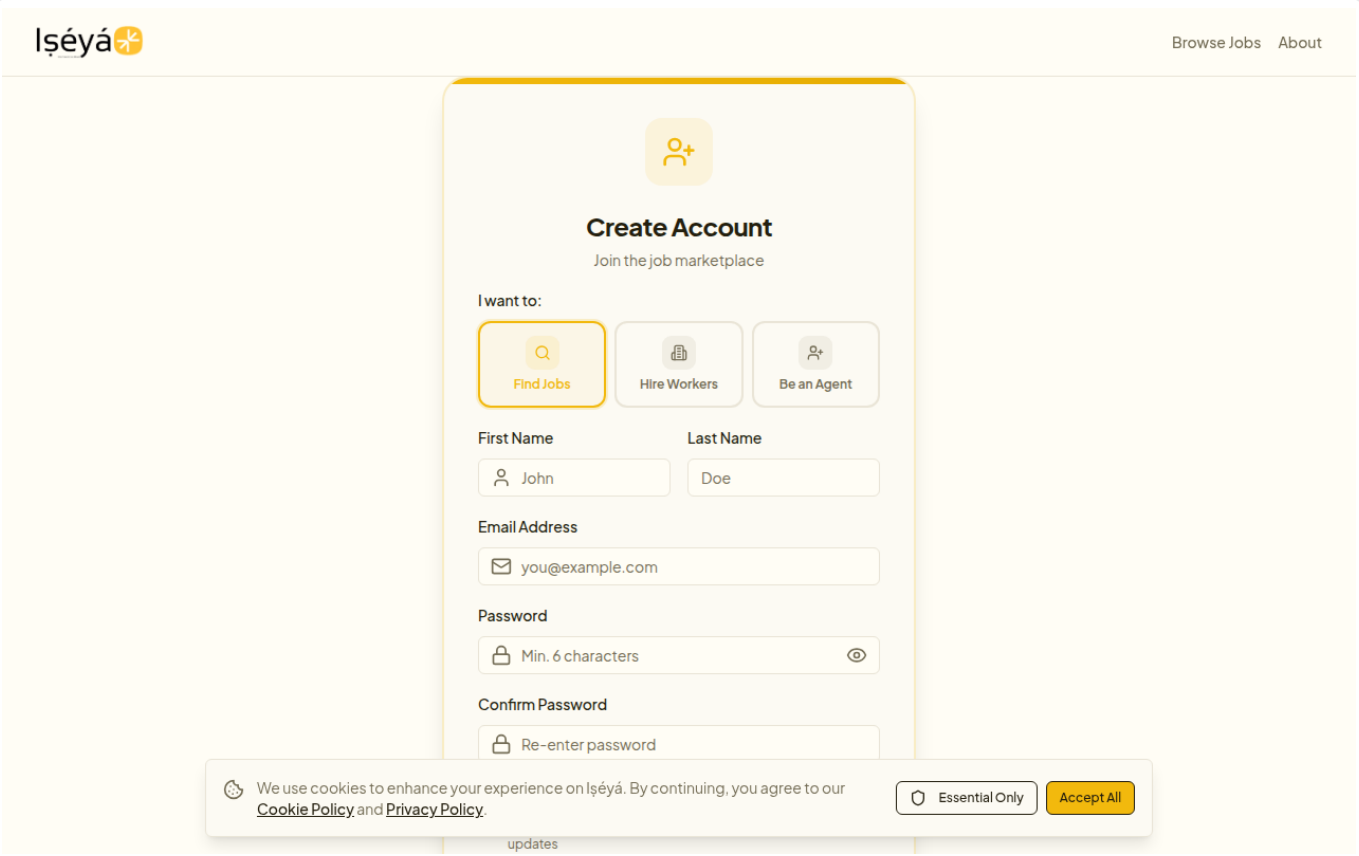


2. Explore the employer landing page

Review what I céyá offers employers — verified workers, fast hiring, flexible plans.

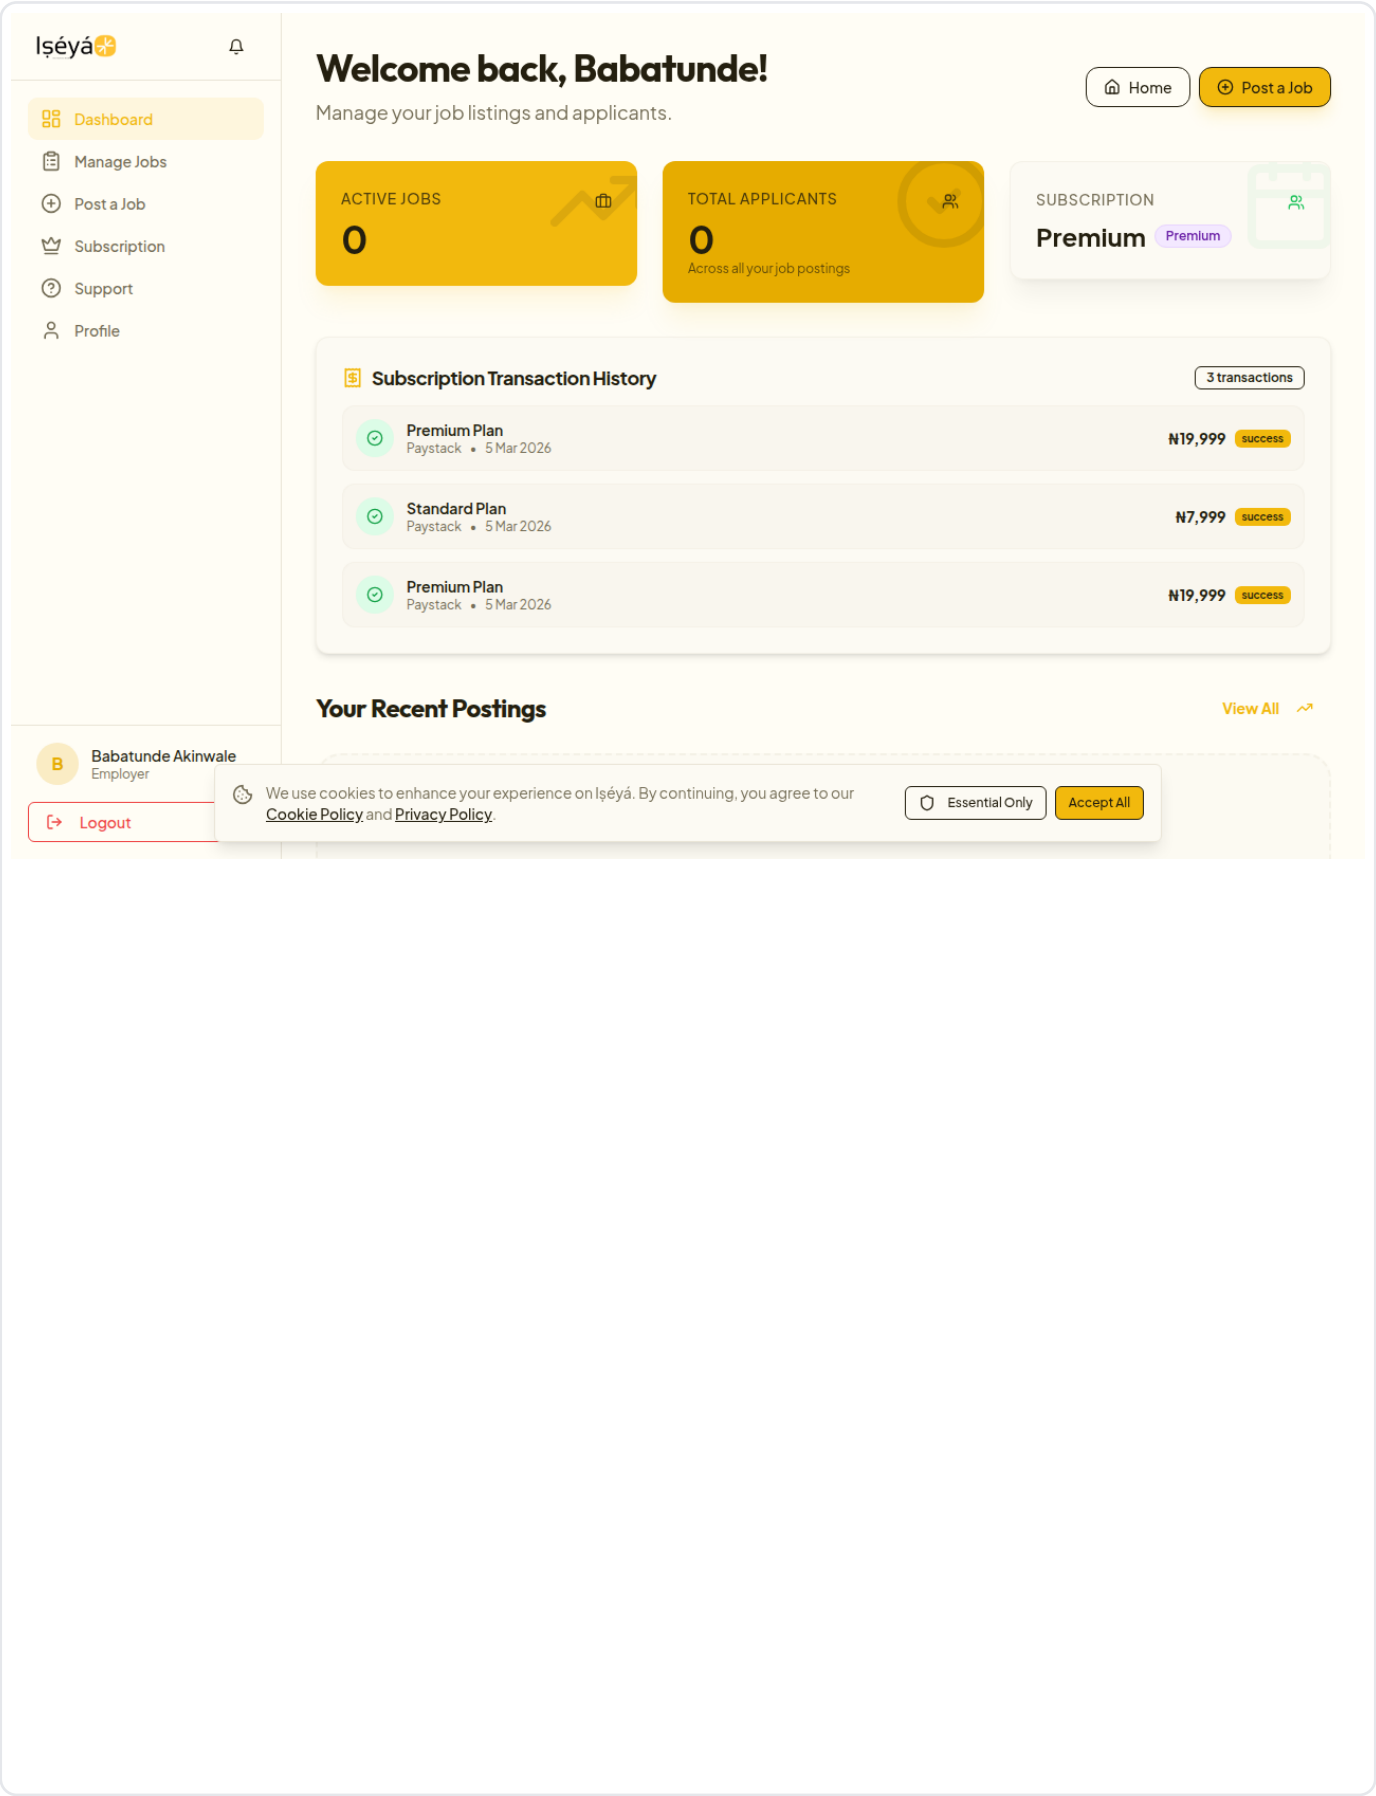
3. Create your employer account

Sign up with your name, email, password and choose the Employer role to unlock job posting.



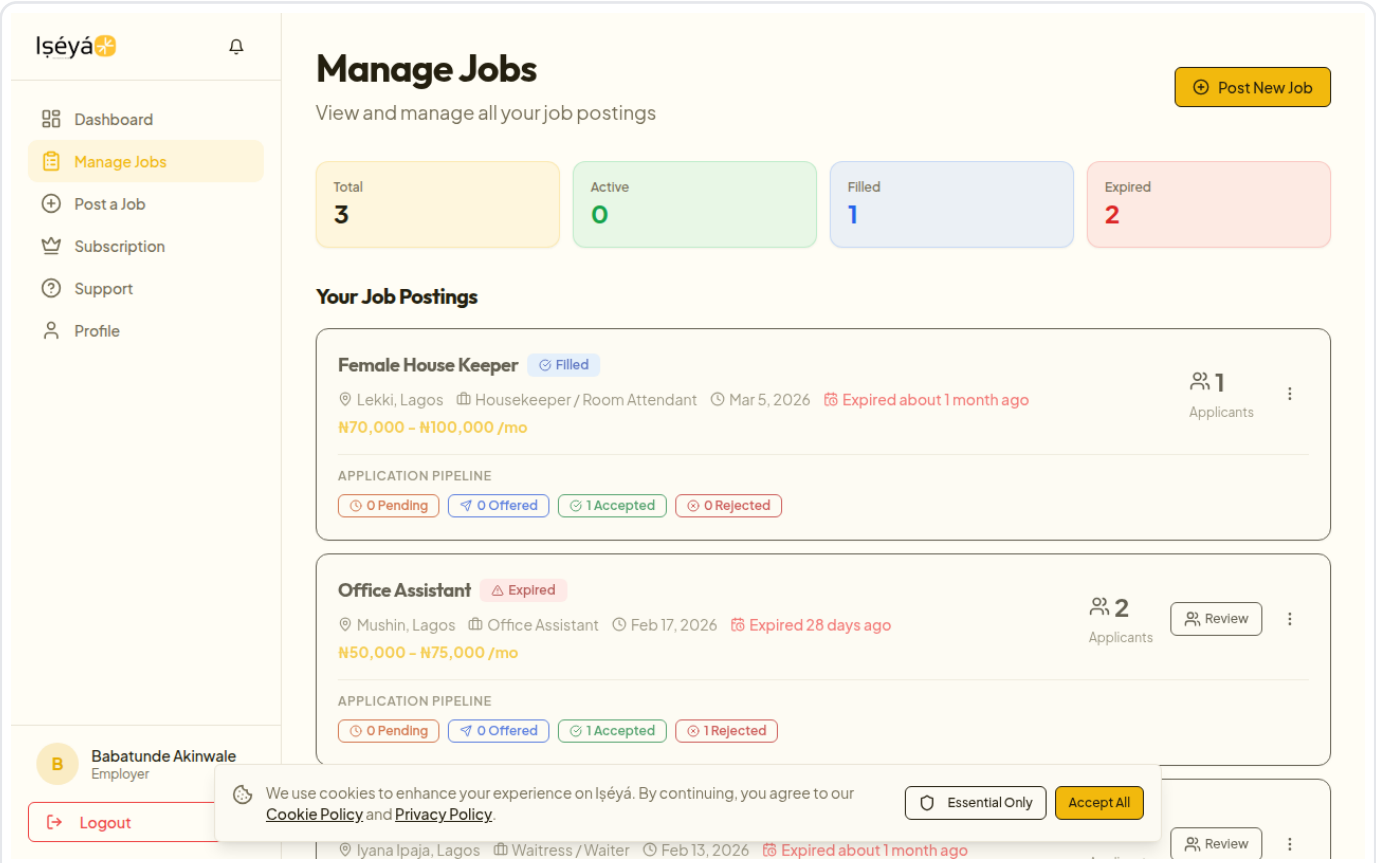
4. Arrive on your employer dashboard

See active jobs, applications, and quick actions. Use the sidebar to navigate the platform.



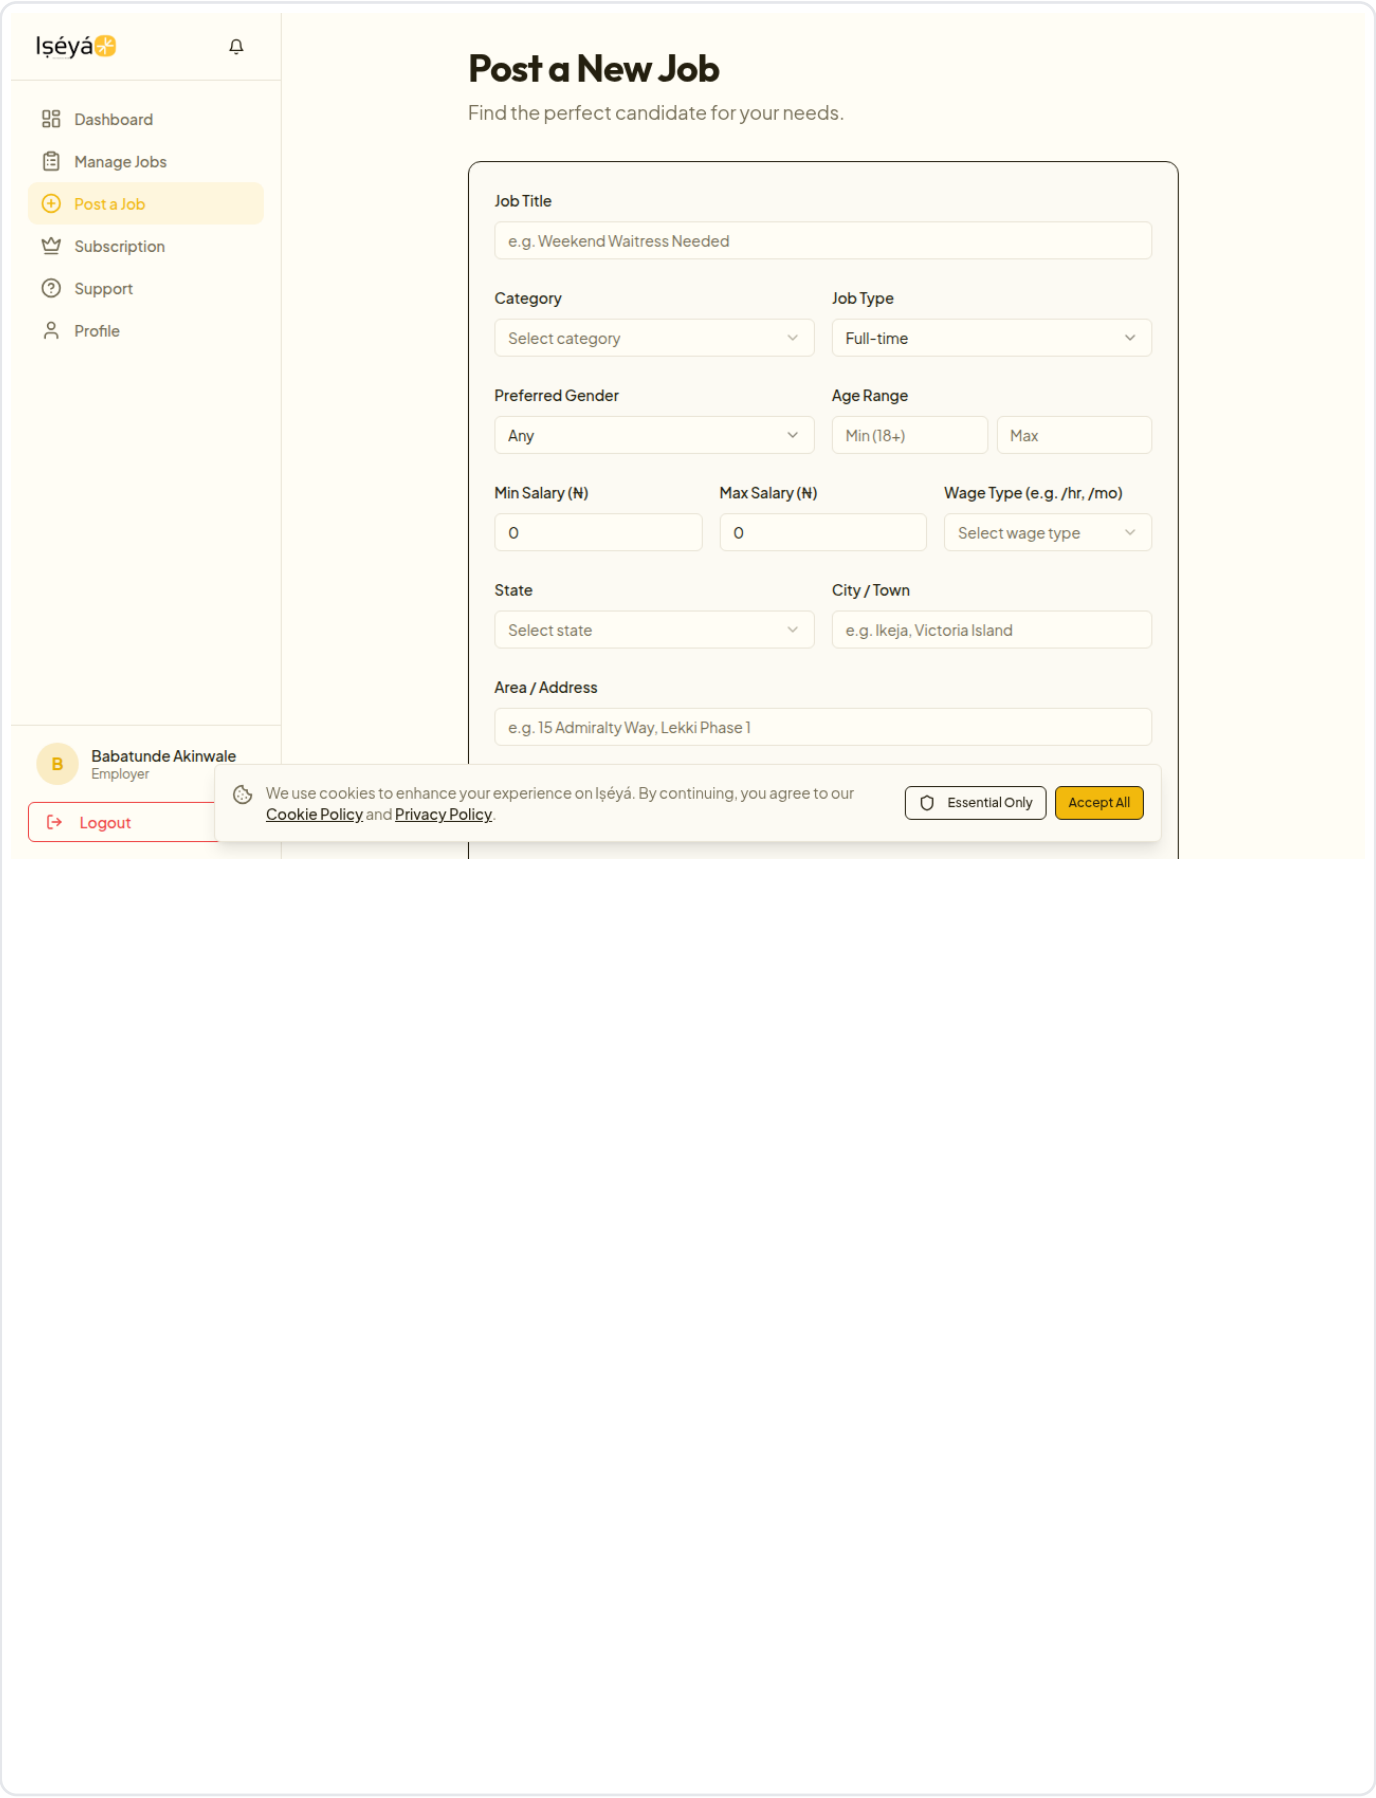
5. Open Manage Jobs

View all jobs you have posted, edit them, change their status, or post a new one.



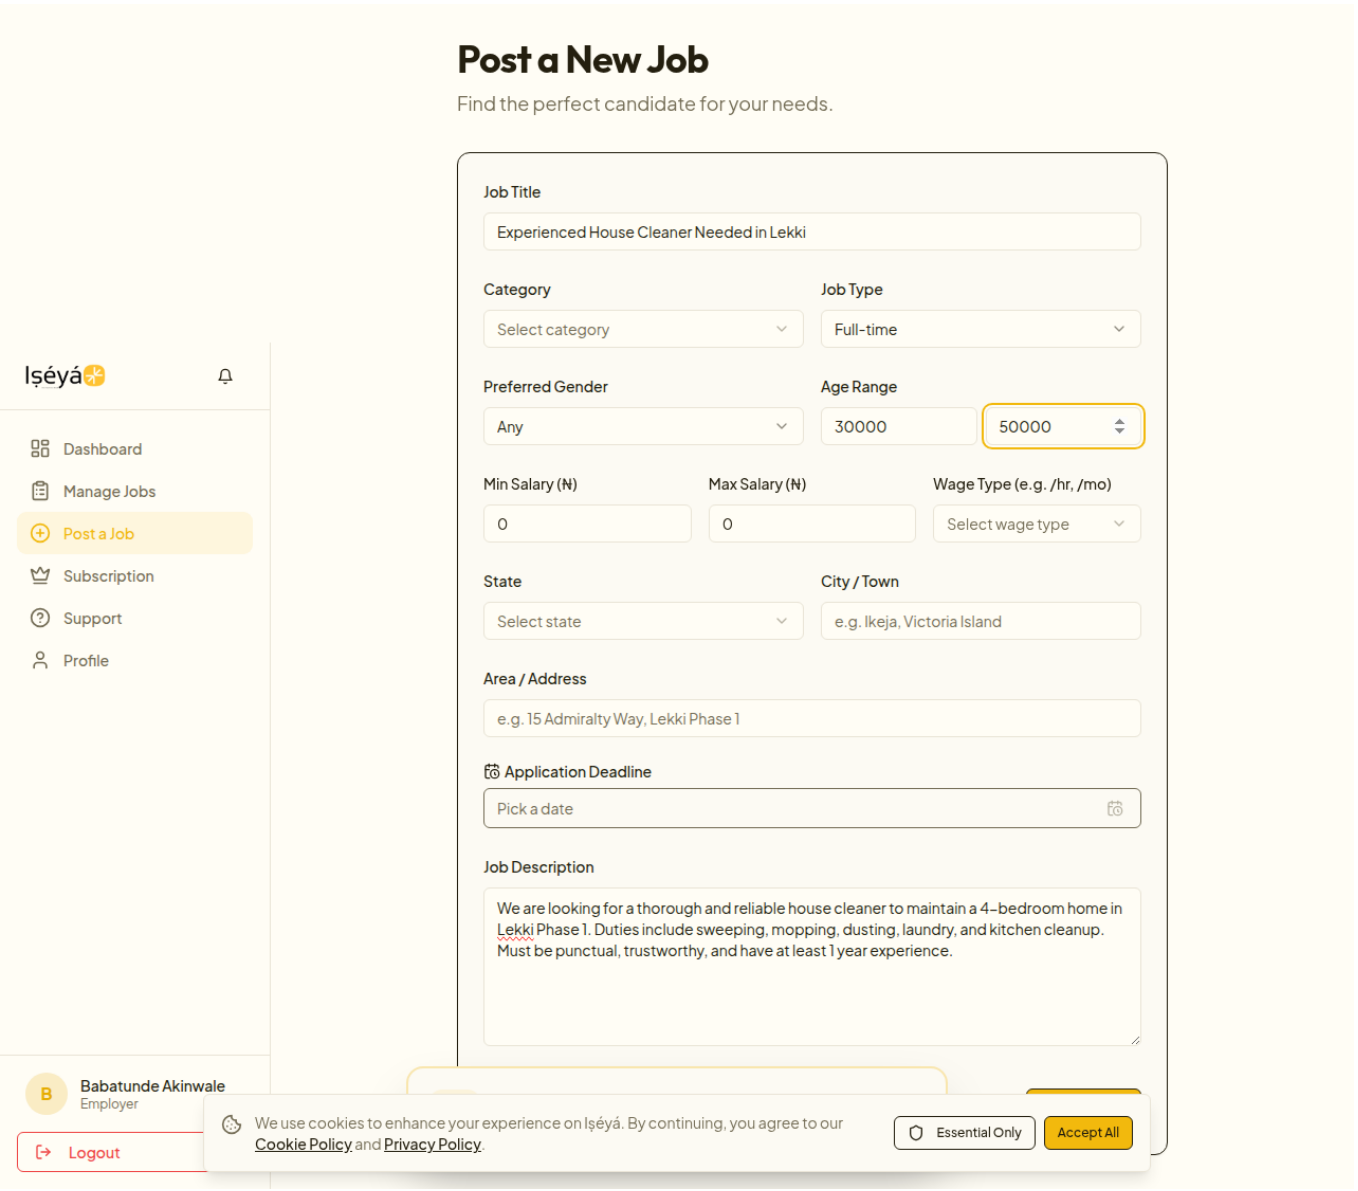
6. Open the Post a Job form

Tap Post a Job in the sidebar to open the new job posting form.



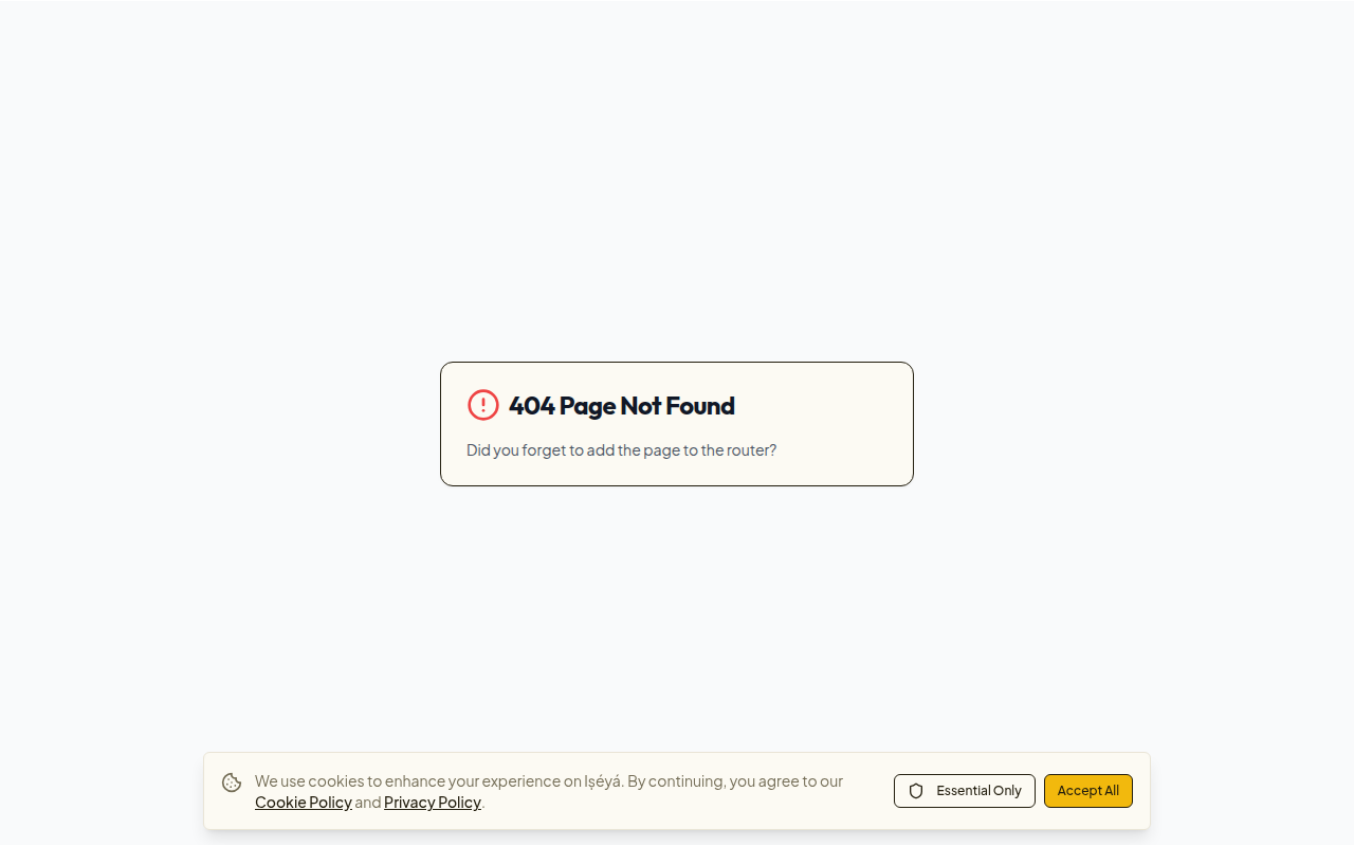
7. Fill in the job details

Add a title, category, salary range, location, deadline and a clear description, then publish.



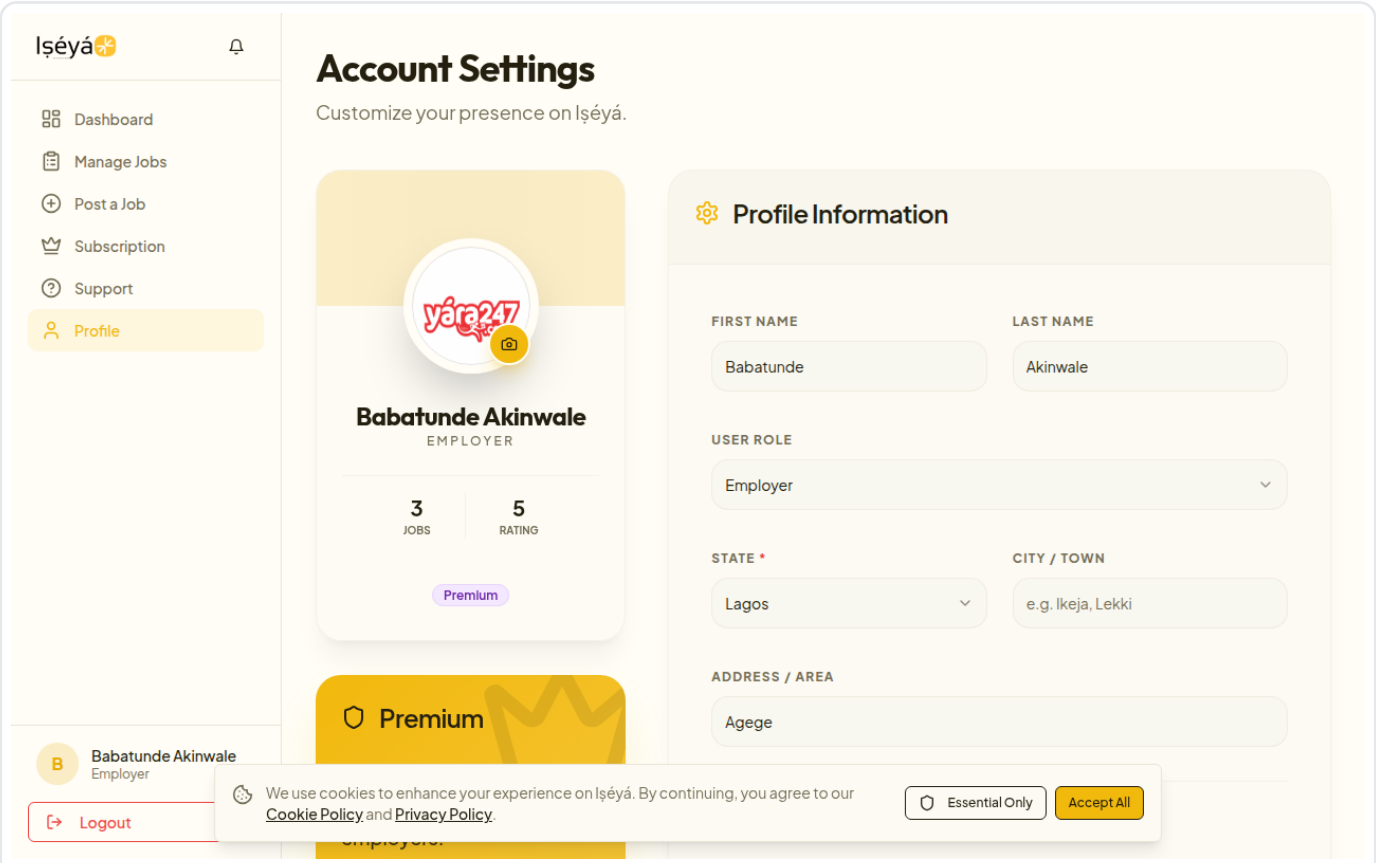
8. Review incoming applicants

Open Manage Jobs to see applicants for each role and review their profiles and messages.



9. Keep your company profile up to date

Update your company name, logo, address and category from your Profile page to build trust.

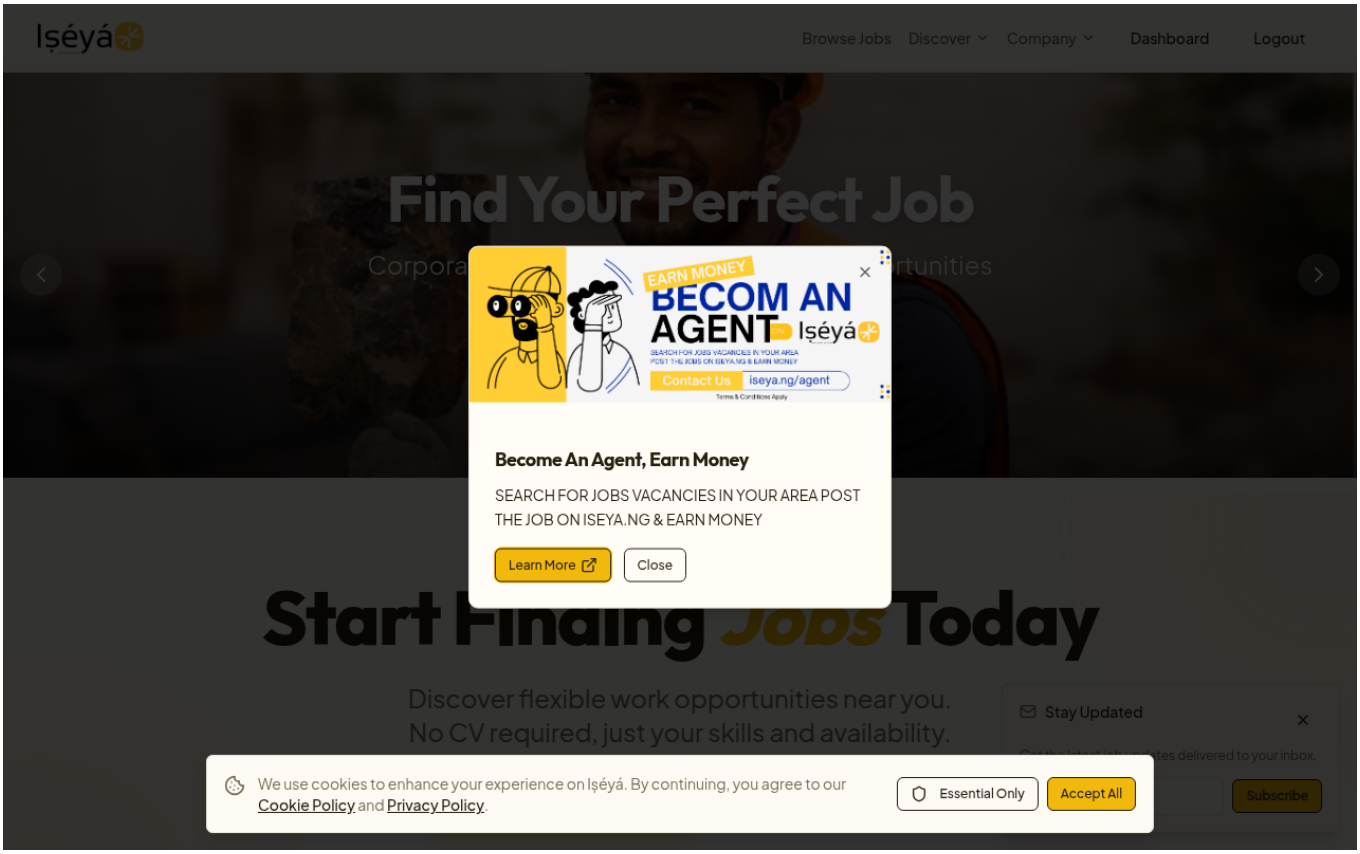


Part 2 — Applicant flow

How to find a job and submit an application on I céyá

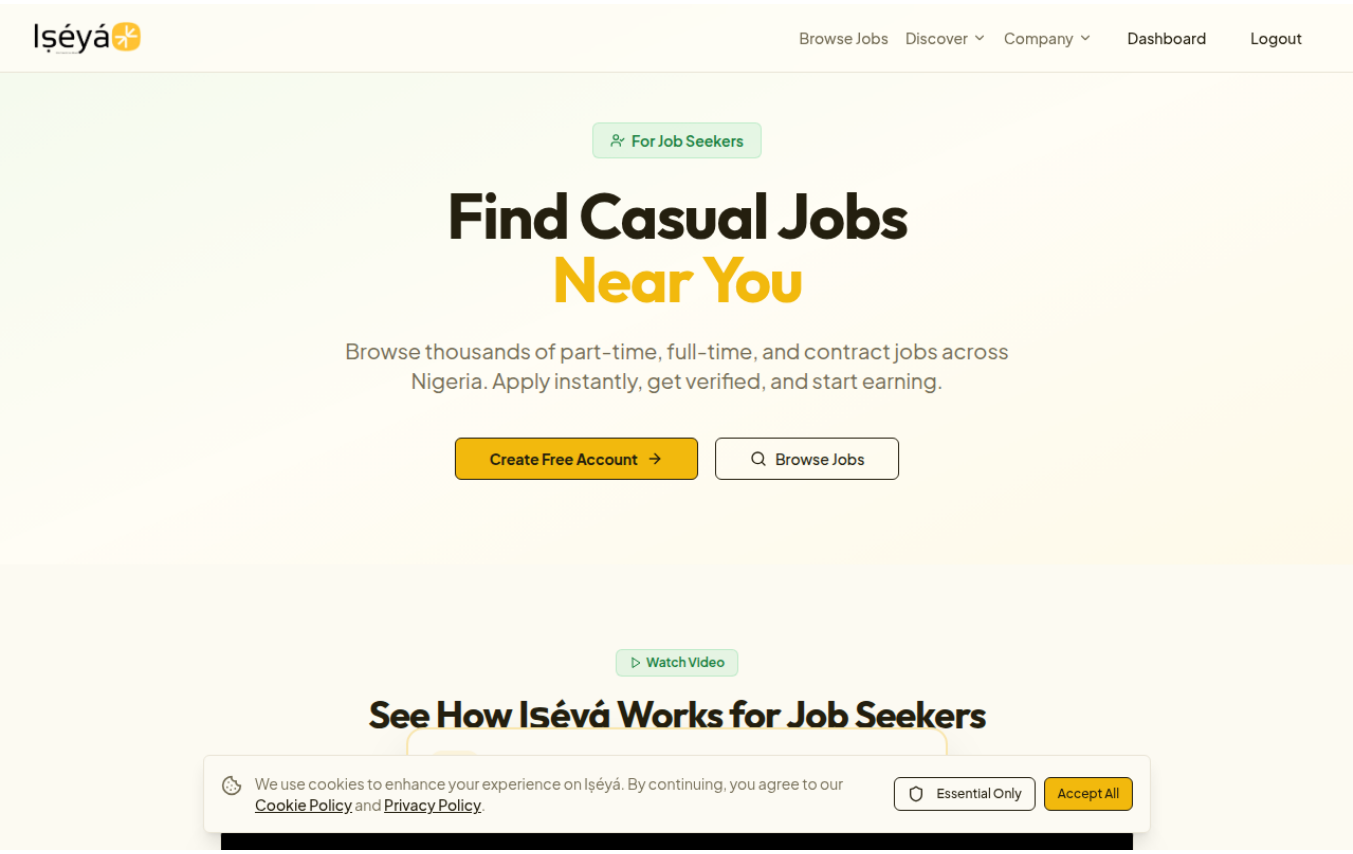
1. Land on the I céyá homepage

Visit iseya.ng and tap Find Work or Browse Jobs to start your job search.



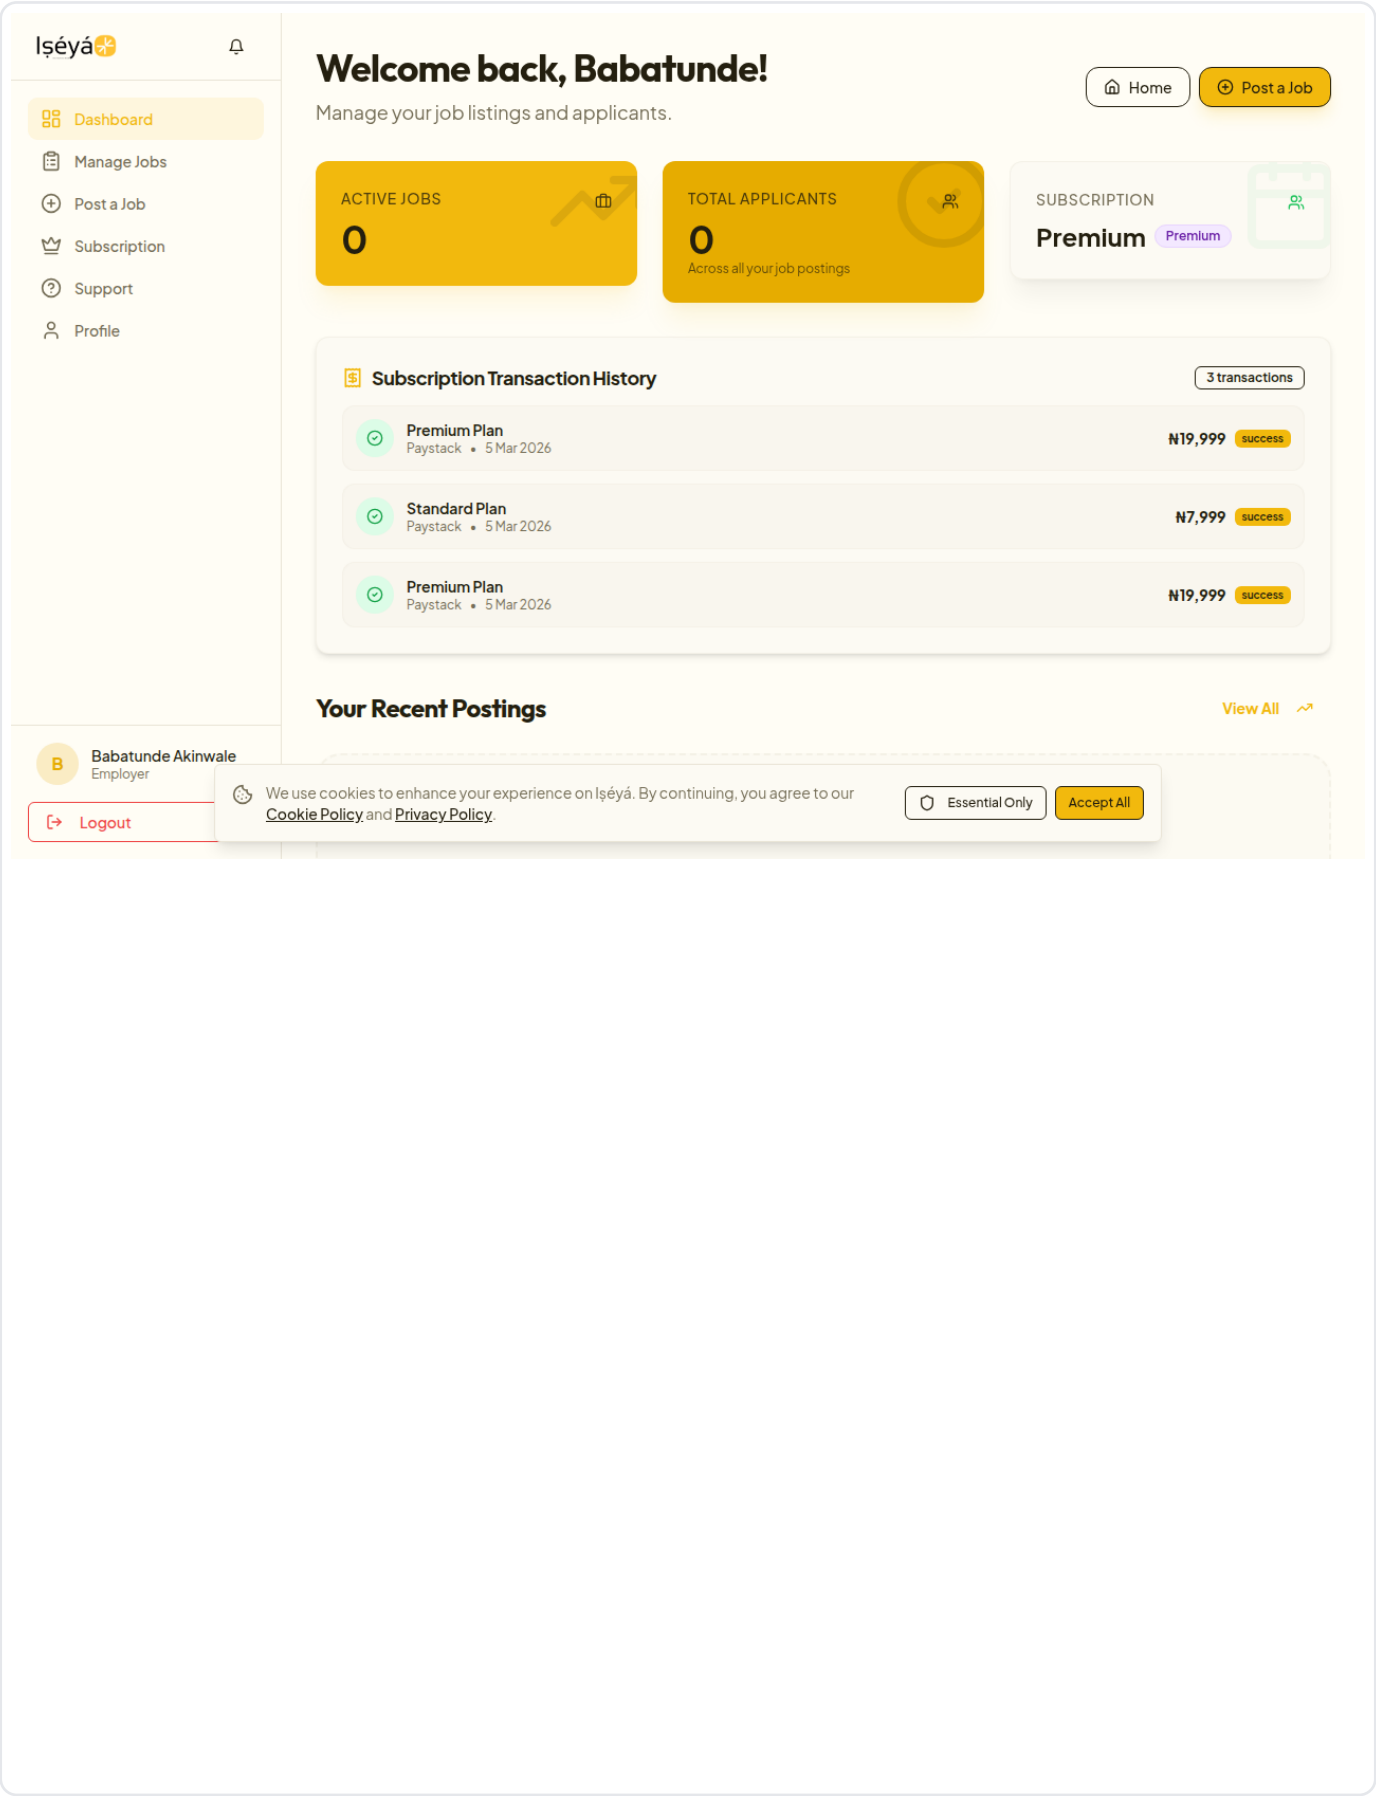
2. Explore the For Job Seekers page

See how I céyá helps you find verified casual jobs in your area, with priority for verified profiles.



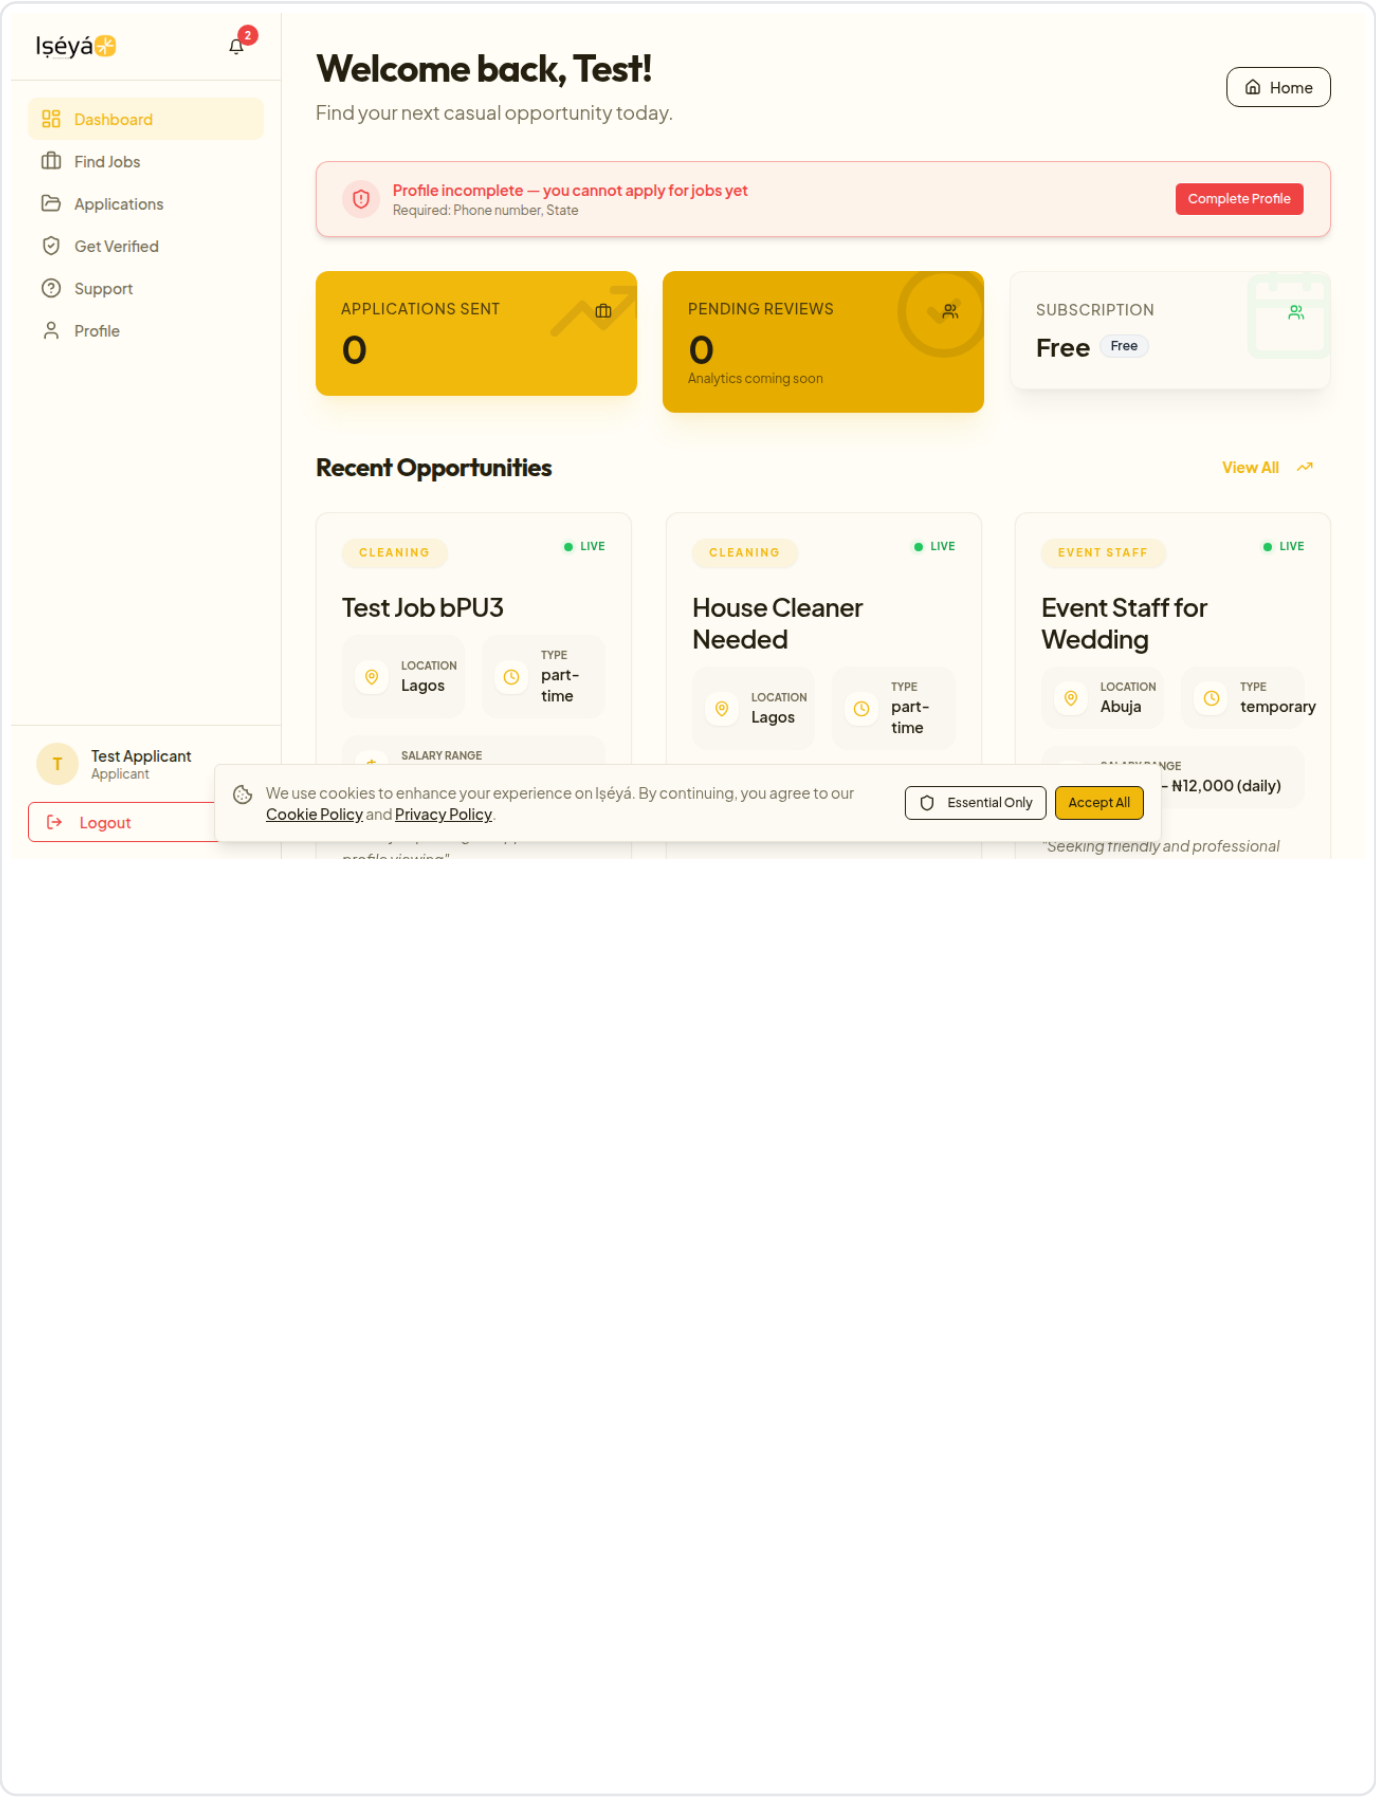
3. Sign up as an applicant

Create a free account with your name, email, password and choose the Applicant role.



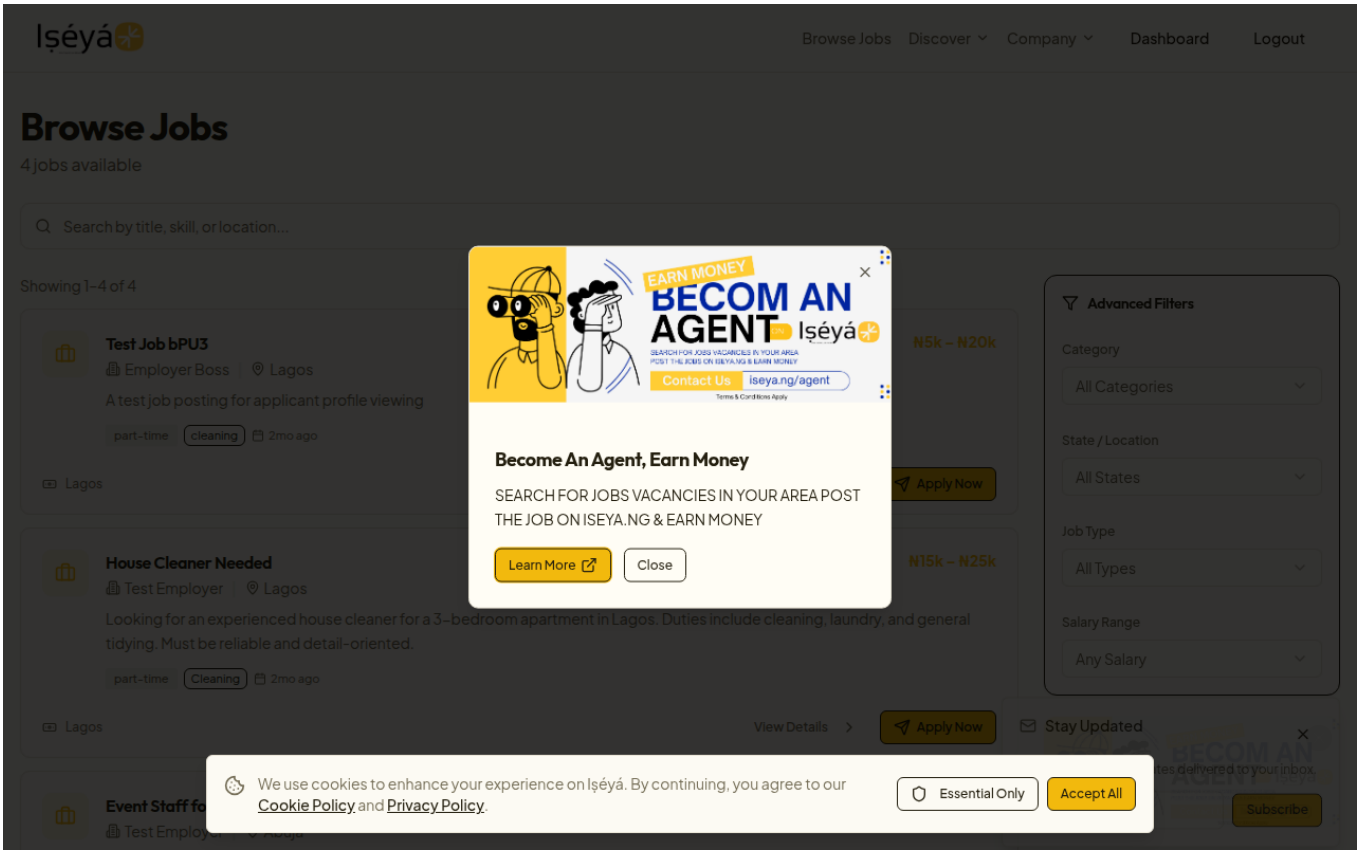
4. View your applicant dashboard

Track your applications, recommended jobs and notifications from one place.



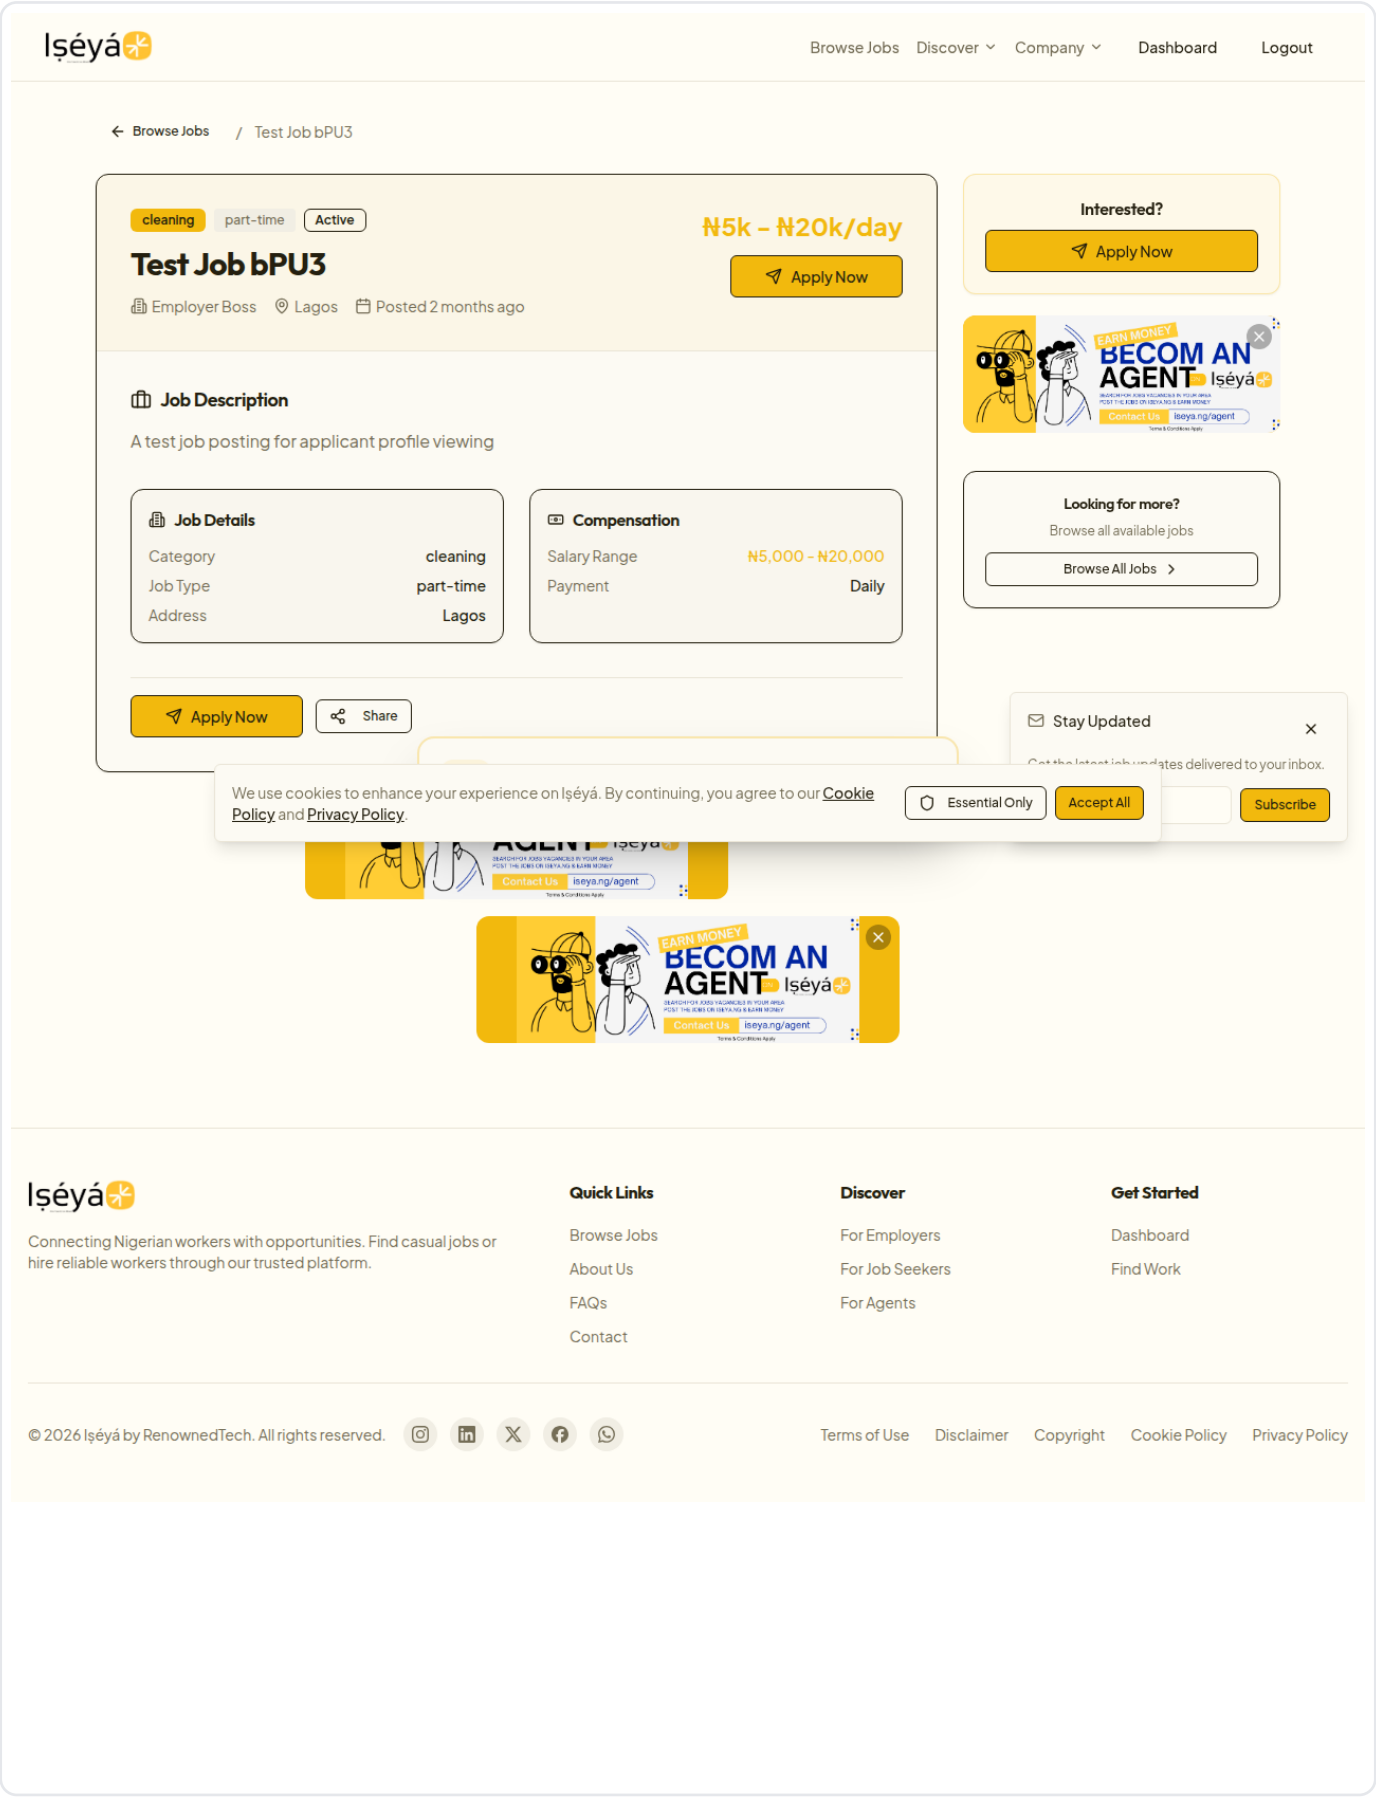
5. Browse available jobs

Filter by category, location, salary range or job type to find roles that match your skills.



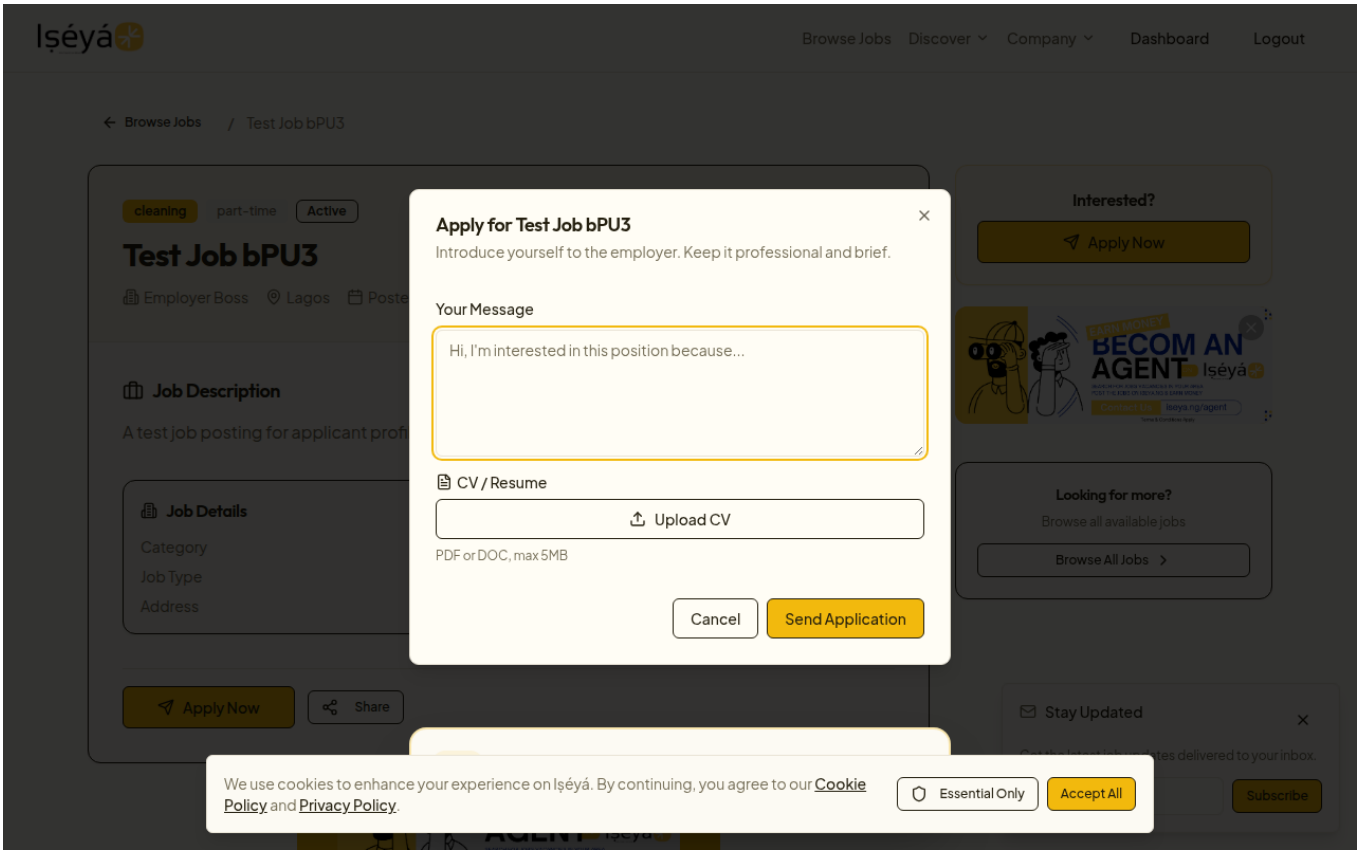
6. Open a job to read the full details

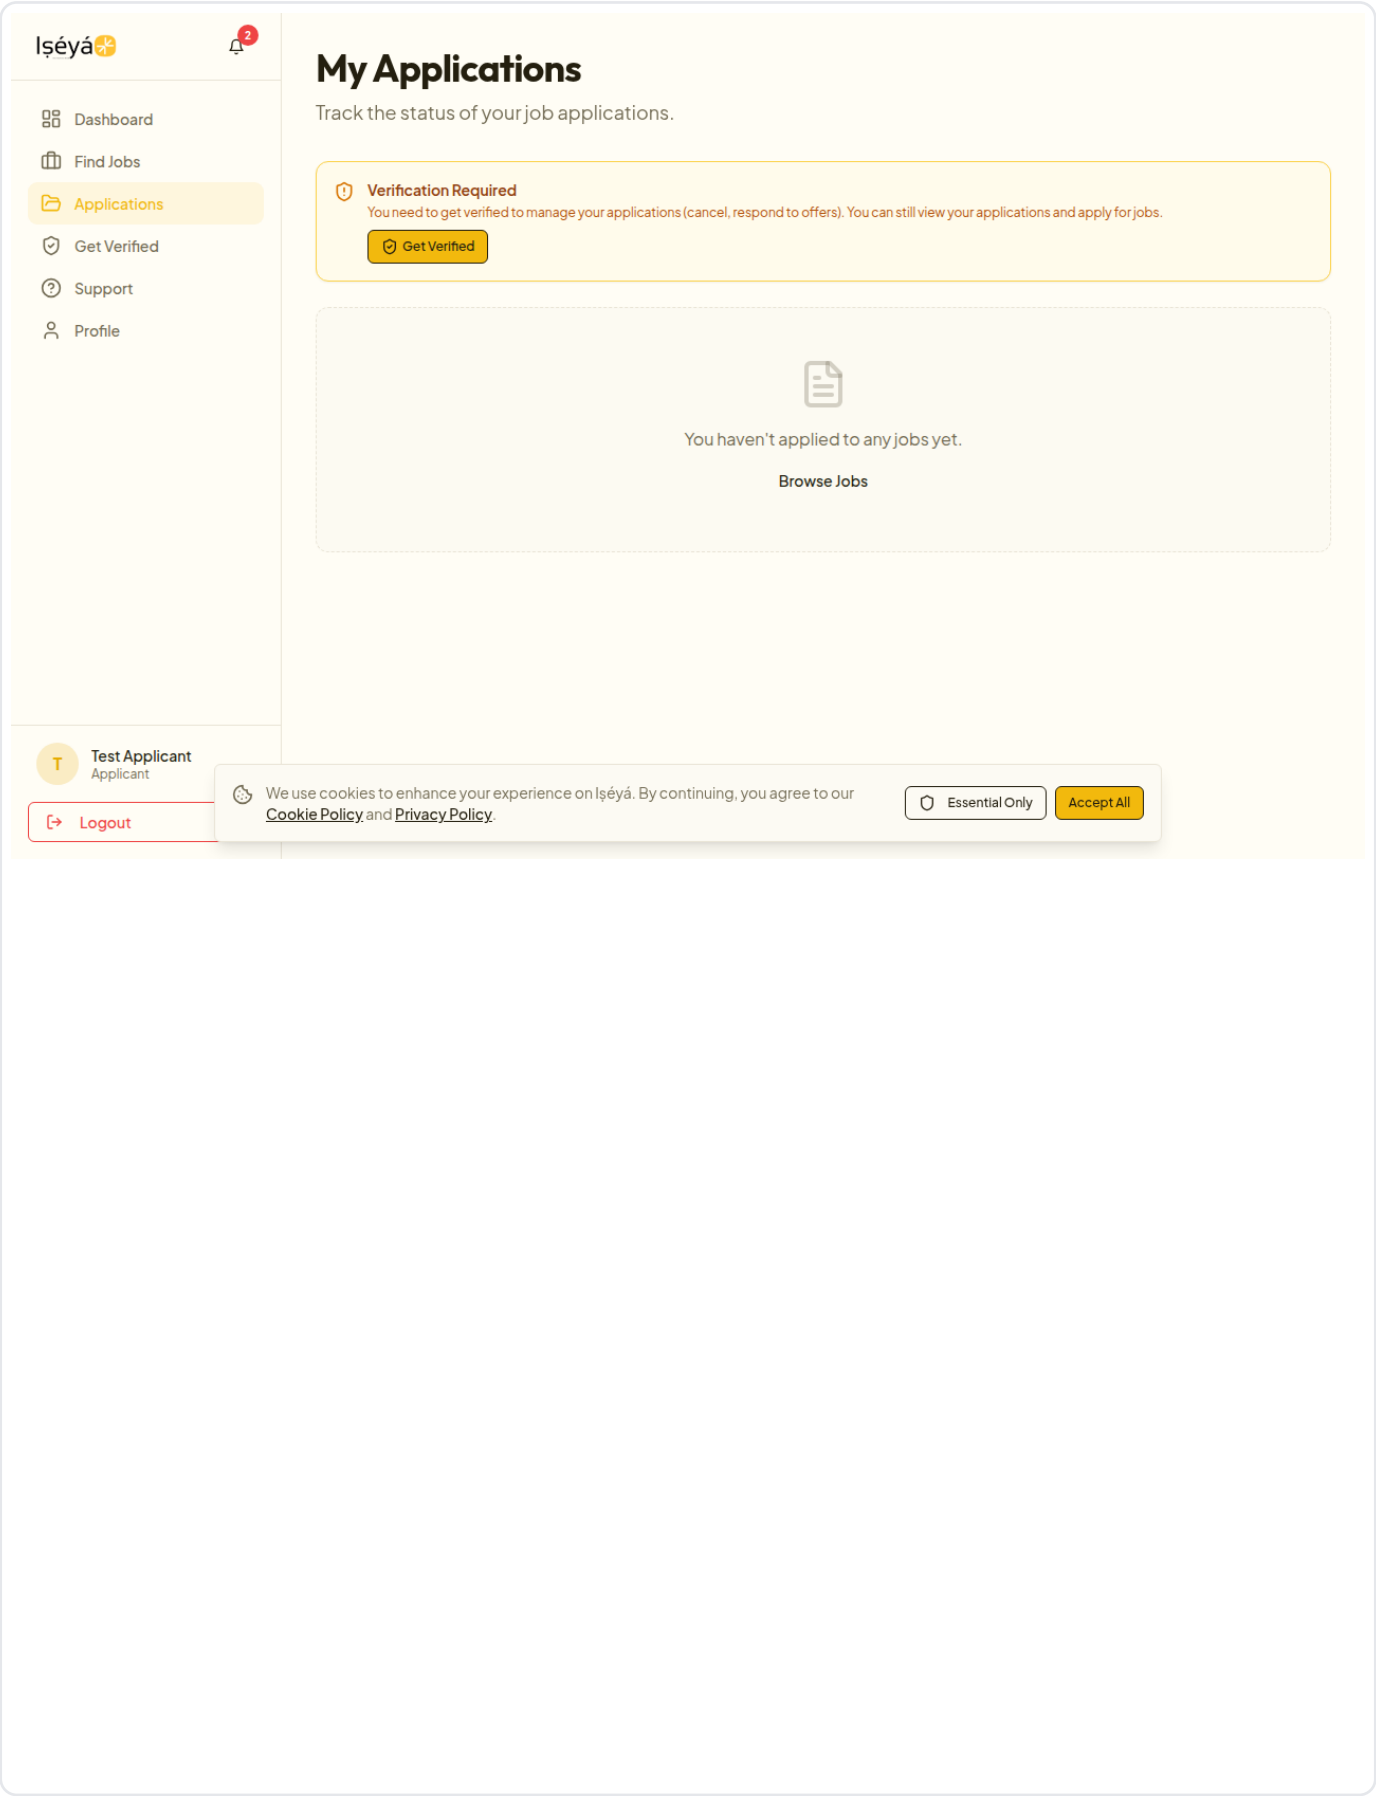
Review the description, salary, location and employer, then tap Apply Now to start your application.



7. Submit your application

Write a short message to the employer, attach your CV if needed, then send your application.



8. Track your applications


Open My Applications to see the status of every job you applied for and respond to offers.
